

## **Executive Course Tee Times and Points**

In response to the many requests from our residents and to enhance the service we offer, we are extending tee times until approximately 30 minutes before dusk with 7:00 P.M. being the latest time during the summer months. This will not only better organize the first tee, but will ensure only residents and their guests are allowed to play. Residents may continue to be served on a first come first serve basis during the early evening hours, however, those who have tee times will have precedent on the first tee. Therefore we recommend folks obtaining tee times prior to arrival.

Additionally, to more equitably distribute tee times, points will be awarded for all tee times up until approximately 90 minutes before dusk. Please see the link, 'Executive Course Starting Times 2010' for details of start times, end times and times points will be awarded.
