Failure to Return Scores

In team events, such as two-person best ball, individual scores must be turned in for handicap purposes according to the USGA Handicap Manual. Such events are commonly played among individual groups as well as organized events such as men's or ladies' day, Village or Resident Cup Qualifiers. The Village Handicap Committee has adopted the following policy: Failure to return an individual score from a team event will result in the posting of a score to your handicap record equal to the lowest differential score in your last twenty scores.
